Junior Front-End Developer adept at creating captivating web experiences. Proficient in HTML, CSS, and JavaScript frameworks such as React JS. I thrive in its independent and collaborative settings, delivering projects that captivate users

Work Experience

MyDevClub +54 - Full Stack Developer
March 2023 - present

Buenos Aires, Argentina - Remote

- Executed projects for clients using Next.js with TypeScript, incorporating Tailwind for styling, and Node.js for the Back End.
- Create a React component library from scratch using Storybook, ensuring streamlined development and enhanced collaboration across the team.

SomosBigo
March 2024 - present

Buenos Aires, Argentina - Remote

- I participated in this project on a freelance basis, helping in the creation of components based on a figma for the creation of sections of the page.
- I helped the support team, solving problems in production, looking for a solution and then creating the PR with its documentation.

Technical Projects

Client Website

http://www.palomasansores360.com/

- It's a dynamic page developed with Next JS and TypeScript. The content within the sections can be customized using the administrator interface, utilizing Node JS and Firebase as the underlying database.
